

# Electricity Price List of Guangzhou

(effective from July 1, 2019)

Unit: fen/kWh

Electricity consumption category		Tariff	Surcharge on electricity generated from renewable energy sources	Urban construction surcharge	Fund for the construction of major national water conservancy projects	Fund for follow-up support for reservoir-induced resettlement	Total (tax inclusive)	
I. Electricity price for large-scale industrial uses	Basic tariff	Transformer capacity (yuan/KVA month)	23.00				23.00	
		Maximum demand (yuan/KVA month)	32.00				32.00	
	Electric energy tariff	1—10kV	61.04	1.90		0.196875	0.67	63.806875
		20kV	60.72	1.90		0.196875	0.67	63.486875
		35—110kV	58.54	1.90		0.196875	0.67	61.306875
	220kV or above	56.04	1.90		0.196875	0.67	58.806875	
II. Electricity price for general industrial and commercial uses		Below 1kV	67.25	1.90		0.196875	0.67	70.016875
		1—10kV	64.75	1.90		0.196875	0.67	67.516875
		20kV	64.34	1.90		0.196875	0.67	67.106875
		35kV or above	62.25	1.90		0.196875	0.67	65.016875
		Subway	57.55	1.90		0.196875	0.67	60.316875
III. Electricity price for residents	Gradient tariff	First step	58.02			0.196875	0.67	58.886875
		Second step	63.02			0.196875	0.67	63.886875
		Third step	88.02			0.196875	0.67	88.886875
	Peak and valley tariff	Peak	95.73			0.196875	0.67	96.596875
		Flat	58.02			0.196875	0.67	58.886875
		Valley	29.01			0.196875	0.67	29.876875
	Combined meter tariff		61.72			0.196875	0.67	62.586875
IV. Electricity price for agricultural uses		Electricity tariff for rice field irrigation and drainage, threshing	38.11			0.196875	38.306875	
		Electricity tariff for agricultural production	62.71			0.196875	62.906875	
Notes	1. The electricity price standard shall be executed according to the price set by Guangdong Provincial Development and Reform Commission [2019] No.191 Document.							
	2. All standards in the table include value-added tax.							
	3. The surcharge on electricity generated from renewable energy sources of 1.9 fen/kWh is not included in the tariff. No surcharge on electricity generated from renewable energy sources will be applied for electricity consumption for residence, rice field irrigation and drainage, threshing, agricultural production and school teaching.							
	4. In accordance with the provisions of the price set by Guangdong Provincial Development and Reform Commission [2015] No.565 Document,							

gas and fuel processing fee of 2.2 fen/kWh (tax inclusive) is no longer charged for large-scale industrial customers.
